- 1. Borders of the abdominal wall.
- 2. Areas and subdivisions of the abdominal wall.
- 3. Abdominal organ's projection to the anterior abdominal wall.
- 4. Walls of abdominal cavity.
- 5. Antero-lateral wall of abdominal cavity.
- 6. Layers of the anterior abdominal wall.
- 7. External abdominal oblique muscle and it's aponeurosis.
- 8. Internal abdominal oblique muscle and it's aponeurosis.
- 9. Transverse abdominal muscle and it's aponeurosis.
- 10. Rectus abdominis muscle and it's sheath.
- 11. Linea alba abdominis.
- 12. Umbilical ring.
- 13. Blood vessels and nerves of the antero-lateral abdominal wall.
- 14. Internal surface of the antero-lateral abdominal wall..
- 15. Inguinal canal.
- 16. Walls and rings of the inguinal canal.
- 17. The content of inguinal canal.
- 18. Abdominal cavity, walls of it.
- 19. Divisions of abdominal cavity.
- 20. Proper abdominal cavity.
- 21. Retroperitoneal space.
- 22. Relations between the peritoneum and abdominal organs.
- 23. Floors of the abdominal cavity.
- 24. Glandular floor.
- 25. Organs of the glandular floor.
- 26. Pouches of the supracolic floor.
- 27. Hepatic pouch and its borders.
- 28. Gastric anterior pouch and its borders.
- 29. Winslows foramen and its borders.
- 30. Subdiaphragmatic space and its divisions.
- 31. Lesser omentum.
- 32. Infracolic (intestinal) floor.
- 33. Lateral canals.
- 34. Omental bursas.
- 35. Greater omentum.
- 36. Parts of the stomach.
- 37. Curvature o the stomach
- 38. Skeletotopy of the stomach.
- 39. Sintopy of the stomach.
- 40. Ligaments of the stomach.
- 41. Blood supply of the stomach.
- 42. Nerve supply of the stomach.

- 43. Parts of the duodenum.
- 44. Skeletotopy of the duodenum.
- 45. Sintopy of the duodenum. Duodeno-jejunal flexure.
- 46. Nerve supply of the duodenum.
- 47. Liver.
- 48. Location of the liver.
- 49. Borders of the liver.
- 50. Surfaces of the liver.
- 51. Lobes of the liver.
- 52. Fissures of the liver and their content.
- 53. Porta hepatis.
- 54. The capsule of the liver.
- 55. Fixation of the liver.
- 56. Ligaments of the liver.
- 57. Blood vessels of the liver.
- 58. Portal vein.
- 59. Veins of the liver.
- 60. Nerve supply of the liver.
- 61. Segments of the liver.
- 62. Gallbladder.
- 63. Shape and location of the gallbladder.
- 64. Cystic duct.
- 65. Blood supply of the gallbladder.
- 66. Callots triangle.
- 67. Parts of the common bile duct.
- 68. The pancreas.
- 69. Skeletotopy of the pancreas.
- 70. Sintopy of the pancreas.
- 71. Blood supply and nerve supply of the pancreas.
- 72. The spleen. Its shape and location.
- 73. Borders of the spleen.
- 74. The hilum of the spleen.
- 75. Vessels of the spleen. Nerve supply of the spleen.
- 76. Glandular part of the small intestine.
- 77. Small intestine compartments.
- 78. Duedeno-jejunal flexure.
- 79. Small intestine mesenterium radix attachment to the posterior abdominal wall.
- 80. Blood supply of the small intestine.
- 81. Veins of the small intestine.
- 82. Nerve supply of the small intestine
- 83. Large intestine.
- 84. Compartments of the large intestine.

- 85. Iliocecal part of large intestine.
- 86. Cecum.
- 87. Location of the cecum.
- 88. Blood supply of the cecum.
- 89. Vermiform appendix.
- 90. Blood supply of the appendix.
- 91. Ascending colon.
- 92. Transverse colon and its mesentery.
- 93. Right and left flexures of the transverse colon.
- 94. Descending colon.
- 95. Sigmoid colon and its mesentery.
- 96. Arteries of large intestine.
- 97. Borders of the thorax.
- 98. Skeleton of the thorax
- 99. Orientation lines of the thorax.
- 100. Superficial layers of the thorax.
- 101. The mammary gland.
- 102. Borders of the mammary gland.
- 103. Fascial capsule of the mammary gland.
- 104. Blood and nerve supply of the mammary gland.
- 105. Lymph vessels and nodes of the mammary gland.
- 106. Deep layers of the thoracic wall.
- 107. External and internal intercostal muscles.
- 108. Intercostal blood vessels and nerves.
- 109. Internal thoracic artery.
- 110. Thoracic cavity serous cavities and loose connective tissue spaces.
- 111. Pleura, pleural cavity.
- 112. Subdivisions of parietal pleura.
- 113. Pleural recesses.
- 114. Borders of the pleura.
- 115. Anterior borders of the pleura.
- 116. Lower borders of the pleura.
- 117. Posterior borders of the pleura.
- 118. Lungs surface and parts.
- 119. Borders of the lung.
- 120. Anterior border of the lung.
- 121. Posterior border of the lung.
- 122. Inferior border of the lung.
- 123. Syntopy of the lung.
- 124. The hilum and the radix of the lung.
- 125. Division lung to lobes and segments.

- 126. Blood supply of the lung.
- 127. Nerve supply of the lung.
- 128. Posterior abdominal wall (lumbar region), its layers, muscles and fascias.
- 129. Borders of lumbar region.
- 130. The retroperitoneal space.
- 131. The ways of pus spreading from retroperitoneal space.
- 132. Kidneys, their location and borders.
- 133. Sintopy of kidneys.
- 134. The hilum of kidney.
- 135. Blood supply of the kidney.
- 136. Nerve supply of the kidney
