

1. Mediastinum .
2. Walls of mediastinum.
3. Divisions and subdivisions of the mediastinum.
4. Organs of anterior mediastinum.
5. Pericardium.
6. Layers of pericardium
7. Parts of the pericardium
8. Sinuses of pericardium.
9. Pericardial cavity
10. Nerve and blood supply of the pericardium.
11. The heart;
12. Heart shape and location.
13. Surfaces of the heart.
14. The base and the apex of the heart.
15. Borders of the heart (left, right and lower).
16. Skeletotopy of the heart valves.
17. Arteries of the heart.
18. Veins of the heart.
19. Nerve supply of the heart.
20. Content of the posterior mediastinum.
21. Parts of the esophagus.
22. Skeletotopy and syntopy of the esophagus
23. Thoracic aorta.
24. Skeletotopy and syntopy of the Thoracic aorta.
25. Branches of the Thoracic aorta.
26. Relation between thoracic aorta and esophagus.
27. Thoracic lymphatic duct.
28. Azygos and hemiazygos veins.
29. Sympathetic trunk.
30. Abdominal aorta, its location.
31. Paired visceral branches of the abdominal aorta.
32. Unpaired branches of abdominal aorta
33. Paired parietal branches of abdominal aorta
34. Terminal branches of abdominal aorta
35. Common iliac arteries and their branches.
36. Internal iliac artery
37. Visceral branches of internal iliac artery
38. Parietal branches of internal iliac artery
39. Inferior vena cava, its location.
40. Sintopy of the inferior vena cava
41. Superior vena cava, its location
42. Sintopy of superior vena cava
43. Projection of superior vena cava
44. Ascending aorta

- 45.Branches of ascending aorta
- 46.Syntopy of ascending aorta
- 47.Projection of ascending aorta
- 48.Arch of aorta
- 49.Syntopy of arch of aorta
- 50.Projection of arch of aorta
- 51.Branches of arch of aorta
- 52.Pulmonary trunk
- 53.Syntopy of pulmonary trunk
- 54.Branches of pulmonary trunk
- 55.Brachiocephalic veins
- 56.clinical syndroms during demage of reccurent laryngeal nerve
