Are sitting (left to right): Nino Aabashidze - Associate Professor, Manana Iverieli - Professor, Head of Department, Lali Jashi – Invited Teacher, Khatia Gogishvili - Associate Professor,

Are standing (Left to right): Nino Gogebashvili - Associate Professor, Tea Tsintsadze - Associate Professor, Ana Chomakhashvili - laborant.

Department of Periodontology and Oral Mucosal diseases was established in 2009 when the Department of Therapeutic Stomatology (1930-2009) was divided into 2 Departments: Department of Odontology and Department of Periodontology and Oral Mucosal diseases.

The students of the Faculty of Stomatology are passing the course of Periodontology and Oral Mucosal in V, VIII, and IX Semesters.

The course teaching literature (textbooks) is developed and published by the academic staff of the Department: "Periodontal Diseases" (2014); "Oral Mucosa Diseases" (2012 - I edition; 2017 - II edition); "Pharmacotherapy of Periodontal Diseases" (1998-I edition 2009-II edition).

Academic Staff of the Department:

Head of Department

Professor Manana Iverieli

Associate Professors: Nino Abashidze, Nino Gogebashvili, Khatia Gogishvili;

Assistant Professors: Tea Tsintsadze, Meri Borjadze.
