Dear Professor Tinatin

**LETTER OF APPRECIATION**

On behalf of all the students registered for the MD degree program at TSMU from Sri Lanka, (and their parents) please, accept our sincere gratitude for the timely action taken.

We as parents, worried about the pandemic and the global crisis and waiting to see how it is going to affect future of all our kids. The timely action taken by the TSMU- the commencement of online teaching program relieved our stress and dilemma to some extent.

It is indeed a very good initiative from the TSMU team. We can see students engaged in their education deeply and they love the program. It is highly commendable making it available to all the students. That builds trust largely between the TSMU, and us – parents.

As it is yet uncertain how the world can end this Covid 19 menace and open it for normal work, we hope and wish it would come sooner.

The people of Sri Lanka wish success to Georgia in the fight against Covid 19 pandemic.

We kindly appreciate, admire and value all the academic staff members contributing to the online program.

Wishing you all good health, courage and strength.

Thank you

K.A. Chandana Wickramaratne  
A father of a student  
On Behalf of all the Students registered for year 2020 from Sri Lanka
