PhD positions available

The PhD program "Regenerative Sciences" at MHH focuses on novel regenerative agents and biomaterials, cellular transplants, and engineered tissues or cell-refined bioimplants.

Our PhD students hold a master's degree or equivalent in life sciences, (bio-)chemistry, bioinformatics, human or veterinary medicine, dentistry, pharmacy, or in an engineering discipline.

Our structured PhD program starts annually on October 1st, our program language is English.

Each year, applications are accepted online* from December 1st until March 1st for the program starting in October. Register and apply here and choose "Regenerative Sciences" as your first priority!

***For applications after March 1st, please contact us directly.**

PhD program "Regenerative Sciences"

Novel regenerative agents and biomaterials, cellular transplants, and engineered tissues or cell-refined bioimplants.
