

TO THE RECTOR OF TSMU

PROF. ZURAB VADACHKORIA

Dear Prof. Vadachkoria,

We would like to express our gratefulness to you for all the support in organization of our exchange semester at Tbilisi State Medical University.

In the course of our program we were able to attend several interesting rotations at First University clinic, which helped us to improve our medical knowledge and clinical skills.

Furthermore, we want to thank our supervising professors and emphasize their exceptional teaching and support during the following clinical subjects:

GYNECOLOGY & OBSTETRICS - Prof. Khanabadze
URGENT SURGERY - Prof. Giorgobiani, Prof. Tsereteli
OPHTHALMOLOGY - Prof. Dvali
PEDIATRICS - Prof. Kavlashvili
OTORHINOLARYNGOLOGY - Prof. Ibridze

Moreover, we really want to note the Dean's Office and underline our special gratitude to Prof. Davit Topkhua and his team for the remarkable help and support.

We hope that the end of our exchange program does not mean the end of our relations.

We are convinced that all the medical education and experience we have received at Tbilisi State Medical University will help us to become reasonable and competent physicians.

Sincerely,

Lisa Wepewal & M. S.

Tbilisi, 15th of June 2017
